2018 KANSAS MODEL GRADE-LEVEL OUTCOMES FOR PHYSICAL EDUCATION

Background

In 2005, a committee of Kansas physical educators authored the Kansas Model Curriculum Standards for Physical Education to assist professionals statewide in their efforts to design meaningful and effective PE programs. The Kansas standards were based upon the 2004 National Standards for K-12 Physical Education from the National Association for Sport and Physical Education (NASPE). NASPE was one of five associations within the American Alliance for Health, Physical Education, Recreation, and Dance (AAHPERD).

The NASPE National Standards were revised in April 2013. Later that year, the five associations of AAHPERD were unified under the new name SHAPE America—Society of Health and Physical Educators. To reflect current professional research and trends, the 2005 Kansas Model Curriculum Standards have been rewritten to align with the 2013 SHAPE America National Standards. The 2018 Kansas PE Standards Revision Committee members were as follows:

Chairperson: Susan E. King, University of Kansas
Members: Derek Berns, USD 435
Ben Bond, USD 229
Karl Ely, USD 262
Glenda Jones, USD 385
Brad King, Mid-America Nazarene University
Kathy Kochersperger, USD 512
Jill Larson-Bradney, USD 343
Mackayla Martin, USD 365
Mary McGroarty, USD 443
Derek Scott, USD 475
Amy Sommers, USD 259
Becky Winter, USD 259

The goal of an effective physical education teacher is to produce physically literate individuals. Physical literacy is generated through innovative, standards-based curricula delivered with excellence by qualified professionals and monitored by consistent and comprehensive assessment. To that end, the Committee endeavored to create a series of grade-level outcomes that would clearly define developmentally-appropriate knowledge and skills, thereby enabling physical educators to assess and monitor their students' progress toward physical literacy.

How to use this document

The 2018 Kansas Model Grade-Level Outcomes for Physical Education are organized in accordance with the five National Standards for K-12 Physical Education by SHAPE America (2014). Under each standard are listed two or more concepts that further define the meaning and intent of the standard. The grade levels were aligned with those found on the Kansas State Department of Education's PE Kansas Lesson Plans website (<http://www.pe-kansas.com>). Each grade-level outcome statement was written to indicate what the physically literate individual should know or be able to do by the end of each level, i.e. by the end of grade 2, grade 5, grade 8, and high school.

The K-2 level was expanded to PK-2 to reflect the current PK-12 licensure endorsement for physical education in the state of Kansas. For Standards 1 and 2, this level was further divided into PK-K and Grades 1-2, enabling the statements to clearly express the progressive nature of learning during this developmental phase. The high school level is divided into Level 1 which represents appropriate outcomes for students completing the required PE program, and Level 2 for those who complete elective PE programming.

Grade levels are labeled as follows: E=Early Primary (PK-K); P=Primary (Grs. 1-2); EP=Early Primary/Primary (Grs. PK-2); IM=Intermediate (Grs. 3-5); MS=Middle School (Grs. 6-8); HS=High School (Grs. 9+)—L1=Level 1 (required PE), L2=Level 2 (elective PE). Each grade-level outcome is identified by a code signifying its connection to a standard, concept, and level. For example, the code 3A.HS2.L2 represents:

- Standard 3
- Concept A
- Grade Level: High School
- Outcome #2
- HS Level 2
